

Description **Sound Absorbing Decorative Free-Standing Partitions**

Benefit Combines a sound absorbing partitioning solution with the aesthetic benefits of digital print pattern, push-thru pattern, or custom print. Protects, provides privacy, and reduces visual and auditory distraction.

Material Fibrous polyester, solution dyed

Sustainability 60% post-consumer PET

Dimensions 30" w x 73" h or 47" w x 54" w (standard size – custom sizes available)

Thickness 1/2"

Weight 14.5 lbs (30" x 72"); 19.8 lbs (47" x 54"); weights include base and legs

Colors 24 sheet colors (visit our materials page)

Print 24 standard print patterns (visit our materials page)

Push-thru 16 standard push-thru patterns (visit our materials page)

Custom print Full-color photographic prints or graphics

Installation Tool-free assembly and installation

Sound Absorption Reduces echoes, background noise and reverberations; NRC Rating* .45 - .95 (45% - 95% of the sound energy that reaches the material is absorbed)

Fire Rating Class A/1 fire rated per ASTM E84

MSDS Fire Explosion Hazard – None

Health Hazard None

Environmental Hazard No toxicological effects

- How to Specify**
1. Select partition size
 2. Select material color
 - 3a. Select print pattern and ink color **OR**
 - 3b. Select push-thru pattern **OR**
 - 3c. Specify custom image or graphics
 4. Select base/leg color

***NRC**: Noise Reduction Coefficient: a measurement of how much sound a surface absorbs
